CAPTAIN HAWKS RETURNS  
SURPRISING BARBARIANS  
IF EAST FLEW WEST  
SINGING IN THE DROUTH

By Arthur Brisbane  
(Copyright 1930 By King Features

THE OTHER DAY CAPTAIN Hawks, America's leading flyer, traveled from the Atlantic to the Pacific in less than 15 hours, by the flight of the same day, arriving in Los Angeles for a game of golf, by broad daylight.

NOW CAPTAIN HAWKS has flown from the Pacific, east, in 12 1/2 hours, breaking the east-bound record held by Colonel and Mrs. Lindbergh, by nearly 2 1/2 hours.

Thanks to such men, real air travel will soon be a reality.

Having given the Afridis 24 hours' notice, the British men bombed their defense towers and many houses, knocking them down as children would overturn a house of sand.

The barbarians were surprised to see how one small bomb could destroy what they considered "an impregnable fortress."

What will happen to western civilization, if the barbarians decide to build planes for their own use? What would happen if our highly civilized friends of Asia decided to stop fighting each other and attack through the air somebody in the west?

ASSOCIATED PRESS CABLES from Nanking, seat of China's Nationalist government, express fear that the city will fall into the hands of Communist troops led by leaders from Russia.

Hankow is preparing for a desperate Communist attack, erecting sandbag barriers, with machine guns ready. Thousands of refugees are pouring in from the countryside where peasants, turning to bolshevism and armed with rifles are marching against the city.

STALIN OF RUSSIA has shown ability to manage men, organize industry and raise billions of dollars. He feels that he has been insulted by capitalist nations particularly this nation.

What would happen in this busy world if he used some of his new factories to build airplanes and send them against "capitalism," with millions of armed Asiatics to back them up?

Some day, after we have settled our prohibition, low price of wheat, and drouth problems, it might pay us to think about some other things that might be worse than those calamities.

MISS MARION TALLY, "girl of the golden west," cultivated her voice, sang in the golden Metropolitan Opera house, made money, returned west and bought a farm. The drouth has ruined the corn on her 800 acres in Kansas and she thinks she will come back to the Metropolitan Opera house for more. There is no drouth in the Metropolitan diamond circle.

Other farmers unfortunately cannot do that.

ABOVE ST. LOUIS, Forest O'Brien and Dale Jackson had been in the air 554 hours and 41 minutes at 9:52 yesterday morning, breaking the world endurance record of the Hunders. The flyers hope to stay up 1,000 hours.

In 1,000 hours, Captain Hawks' plane, doing its best, could fly around the world 10 times. Many, now living, will see planes going round the world within 24 hours and without refueling.

Hitler, said to be the most

GOVERNORS MEET ON DROUGHT PROBLEM

Hawks Sets New Record

From Los Angeles to New York in 12 hours and 25 minutes is the record set by Captain Frank Hawks. It bettered by two hours the mark of Colonel and Mrs. Lindbergh. Hawks and his low winged monoplane are pictured above.

CAPTAIN FRANK HAWKS  
SETS NEW RECORD FOR  
COAST TO COAST TRIP

12 Hours, 25 Minutes Consumed In Flight From  
Los Angeles To California; Beats Mark  
Of Col. And Mrs. Charles Lindbergh

(By The Associated Press)  
VALLEY STREAM, N. Y., Aug. 14.—Behind the name of Captain Frank M. Hawks in aviation's record book today is set down the time of 12 hours, 25 minutes, three seconds for an eastward transcontinental flight, the fastest ever flown by man over that distance of 2,500 miles.

It is faster by more than two hours than time made Easter Sunday by Colonel and Mrs. Charles A. Lindbergh. Their record was 14 hours, 45 minutes.

Seemingly fresh and his white sports clothes unstained, Captain Hawks set his Travelair monoplane down on Curtis Field at 5:41:30 p. m., Salem time, last night after having left Glendale, Cal., at 5:16:27 a. m. Salem time. A week ago he took from Roscoe Turner the record for the westward transcontinental flight, making it in 14 hours, 50 minutes and 43 seconds.

Record My Stand  
"I don't think it can be done any faster," said Capt. Hawks, as he landed last night. "Given exceptional weather in the fall, it is just possible my time can be bettered."

A great shout went up from several hundred throats at the field.

Overdue At Columbus On  
Trip To Set New  
Flight Record

WESTFIELD, N. J., Aug. 14.—No word had been received at the local airport from Eddie Schneider, Jersey City boy who hepped off at dawn in quest of the junior transcontinental air record. Officials expressed no apprehension for his safety although he was overdue at Columbus, Ohio.

WESTFIELD, N. J., Aug. 14.—Eddie Schneider, 18-year-old pilot, took off at 5:55 a. m. (E. S. T.) today in an attempt to set a new junior transcontinental flight record. The present record was established by the late Frank G. Gidder, who made the trip in 33 hours, 35 minutes.

He plans to make his first stop at Columbus, O., for fuel and a second refueling stop at St. Louis. At Wichita, Kan., he plans to spend the night while a 250 gallon tank is fitted into his plane. The last stage of the flight will be to Alhambra, Cal., which he hopes to reach by tomorrow night.

ST. HUBERT AIRPORT, MONTREAL, Aug. 14.—The British dirigible R-100, was making fast time today on an eastward crossing of the Atlantic toward its home station at Cardington, England.

With one of its powerful motors out of commission, the largest lighter-than air liner in the world cast off from the mooring tower here at 8:26 p. m. Salem time yesterday and headed down the St. Lawrence valley.

In addition to its complement of 44 officers and men, the airship carried 13 passengers, including two official observers and a group of press representatives.

Despite the handicap of one dead motor, Squadron Leader R. M. Booth and his officers expected to make a quick crossing aided by following winds and tie up at Cardington Saturday morning.

Their estimate for the trip was 50 hours, which would give the R-100 the record for an eastward transatlantic voyage, about six hours less than the best time of the German dirigible Graf Zeppelin.

Circling over Montreal in a last gesture of farewell, the R-100 headed down the river. An hour and 24 minutes later it was sighted over Three Rivers, Que., travelling at the rate of 60 miles an hour.

Picking up speed, the airship arrived over Quebec at 10:45 having covered the 163 miles from Montreal in 2 hours and 20 minutes.

Weather forecasts promised good flying conditions over the first half of the ocean with following winds.

The departure of the R-100 ended a 13 day stay in Canada. The airship arrived Aug. 1 after setting a new record for the westward trip of 78 hours and 40 minutes.

Disabling of the forward starboard engine occurred during a flight over Quebec at cities last Sunday and Monday. It could not be put into commission without delaying the start and Squadron Leader Booth decided to leave with the five good engines.

Bee Inspector For  
County Appointed

LISBON, Aug. 14.—Following his approval by the state department of agriculture, George Rehman of Wellsville has been appointed apriary inspector for Columbiana county by the county commissioners. He will receive a salary of \$50 annually. The appointment of an inspector of bees in this county was asked by the Columbiana County Bee Keepers' association, it being pointed out that because of the growth of the industry in Columbiana county the services of an experienced inspector were necessary for its preservation.

Gotham City Solons

NEW YORK, Aug. 14.—Here's a conundrum facing the city fathers. Pigs on Riker's Island, where there is a city dump, are being killed by ferocious dogs kept on the island to kill equal ferocious rats. Employees refuse to go on the island unless accompanied by the dogs. One suggested solution is that a fence be built to protect the pigs.

Seven fires, six of them grass and field blazes and all of a serious nature, were extinguished by members of the Salem fire department in a period of less than nine hours Wednesday afternoon and evening.

Both shifts of the fire squad were called into action as alarms were turned in by residents of the city and Perry township at frequent periods, each of the three fire trucks owned in Salem being in use practically the entire afternoon.

Firemen were unable to respond to two pleas for aid in fighting a blaze east of the city, being forced to concentrate their battles against the fires inside the city's corporation limits.

One fire, occurring on the Damascus road, laid waste to approximately 75 acres of farmlands, part of which is owned by E. H. Campbell. The fire started on a farm adjacent to the Campbell property.

(By The Associated Press)  
COLUMBUS, Aug. 14.—With the primary out of the way, Ohio Democratic and Republican leaders today drew their battle lines for one of the warmest campaigns in the state's history to sweep their standard-bearers to victory in the November elections.

Moving swiftly after yesterday's balloting in which state, congressional and county tickets were set up, Democratic state headquarters called all state nominees to a conference here this afternoon to draw up plans for the contest.

The Republicans will hold their council of war after Governor Cooper's return from Washington where he was called to confer with President Hoover and governors of other states regarding the drought situation.

Chief, Mayor Issue Word  
Of Warning On Fires  
In Outdoors

Mayor John M. Davidson and Fire Chief Vincent L. Malloy joined in appeals issued to residents of the city of Salem and Perry township to take all precautions in efforts to reduce fires occurring in this district to a least number as possible.

The pleas were issued as a result of the seven fires occurring in the city and vicinity Wednesday afternoon and evening which brought the total fire runs made by the Salem department this year to 106, five more than were made during the entire year of 1929.

In the past 30 days, Malloy announced, a total of 41 fires have been extinguished by the city's fire fighters. Twenty-one have already occurred this month.

"The fire hazard is more apparent and more serious than at any other time during the year during the summer months," Mayor Davidson announced. "Farm lands are endangered, lives may be lost, and heavy damage result from blazes which are preventable and are due largely to carelessness."

"No person is allowed to build a fire in the city without taking necessary precautions to prevent its spread to other properties. Arrests will result immediately if such a violation occurs."

Malloy stressed the fact that persons burning old papers or rubbish must build such fires in containers made expressly for the purpose to prevent their spreading. He also asked that people eliminate this means of burning trash and burn it in heaters during the present drought.

Wednesday was one of the busiest days in the history of the Salem fire department. Seven alarms were answered while firemen were unable to respond to two others issued from outside of the city.

Homes Are Endangered  
"It is fortunate," Malloy stated, "that no buildings were burned in fires yesterday. We returned from one fire to make a run to another and it may be in the future that a blaze started through carelessness will occur while all of the city's fire-fighting equipment is being used to combat other flames. In such a case it would be impossible for us to abandon our efforts on the latter to make later runs and a fire which might well have been prevented will destroy the home and may possibly cause loss of life."

Twice yesterday calls were sent into the fire department while firemen were battling other conflagrations. It was only a matter of good fortune according to the mayor and fire chief that the department's men were able to extinguish or control flames they were battling when other calls were received quickly and continue with the apparatus to scenes of later blazes.

Long's Crossing Grading  
Completed; Predict

LISBON, Aug. 14.—The last concrete is expected to be poured on the new section of the Salem-Lisbon road either next Saturday or Monday, it was announced today by County Surveyor Lloyd C. Kirk. This project is being completed by Harry M. Bates of Steubenville. Grading on this road at Long's Crossing has been completed, and the road will be opened to traffic 21 days after the last concrete has been placed.

Changes Unloading Plant  
The contractor has changed his unloading plant from Kensington to Summitville, and has resumed the pouring of concrete on the Salineville-Kensington road.

By Friday evening this new project will have reached a point where this road starts on the abandoned right of way of the Cleveland & Pittsburgh railroad.

So far over two and one-half miles of concrete has been poured on this project. It is believed that within a month all of the concrete will have been poured on this road.

Following an inspection of the recently graded Elkton-Signal road, a highway about five miles in length in Elkrun township, Division Engineer Leggett of Ravenna, representing the state highway department and Engineer L. M. Kinner of the Columbus office, it was announced that this road would be given a traffic bound surface before fall.

To Supervise Work  
This project will be carried out by the state highway department, and will be under the supervision of W. C. Neff, superintendent of the department in Columbiana county. In order to speed construction of a two mile concrete highway project in Unity township, the Lewis & Copeland Co., of Lima, O., has placed two eight-hour shifts on this road. The improvement concerns the reconstruction of a section of the Cox highway or State Route 14. The continuation of this arrangement is contingent, however, upon the water supply. The scarcity of water in this particular section of Columbiana county is liable to delay the pouring of concrete, not only on this project, but also on the Summitville-Kensington road.

Then they abandoned their stolen car and took another and headed for South Charleston. At South Charleston they were greeted with a volley of shots from citizens who were on the lookout for them.

Apparently they escaped unhurt, as the last time they were seen, they were headed for Dayton as fast as they could travel.

(By The Associated Press)  
WASHINGTON, Aug. 14.—Governors and representatives of 12 states gathered in the capital today for President Hoover's conference on means of relieving suffering on their drought-parched farms. A tinge of optimism entered their deliberations as reports of good rains in some sections of the dry belt and forecasts of showers in others came from the weather bureau.

From the conference, scheduled for 2:30 p. m. are expected to come definite relief plans and an organization for carrying these into effect. Attention in person were Governors Henry S. Caulfield, of Missouri; Louis L. Emerson, Illinois; Harry S. Leslie, Indiana; Myers V. Cooper, Ohio; William G. Conley, West Virginia; John G. Pollard, Virginia; John E. Erickson, Montana; Clyde M. Reed, Kansas; John Hammel, Iowa, and Arthur J. Weaver of Nebraska. Governor Sampson of Kentucky sent Senator Robinson as his representative and Governor Parnell of Arkansas, had Harvey T. Harrison, Little Rock attorney, and T. Roy Field, assistant director of extension of the university of Arkansas, attend for his state.

To Survey Areas  
President Hoover arranged to first give the executives a summary of the exhaustive surveys of the drought areas which have been conducted under his direction during the past two weeks. Then the opinions of the state heads themselves, and their recommendations were sought. Chairman Legge of the farm board and Chairman Bestor of the federal farm loan board also had a place in the deliberations, while heads of large farm organizations have been summoned to meet with the President tomorrow.

The scene of the governor's conference was the stately white room in the executive mansion where significant events in the national history have taken place. As the governors gathered, the first large scale relief measure already under way. Railroads were extending 50 per cent freight rate reductions to farmers in more than 300 counties in the eight states, selected by Secretary Hyde as the ones most in need of immediate aid.

Cut Railroad Rates  
The rates applied on feed shipped in and on cattle shipped to grazing grounds but not to market. A further list of counties to cover the entire area in need was being completed by the agriculture chief.

On guard against food profiteering as a result of the drought, the agriculture department undertook to put into effect today the new system by which the consumer will have full information on the quantities of vegetables and fruit available at the principal markets. Daily reports will be issued giving the carload receipts at each point of cantaloupes, peaches, lettuce, onions, white potatoes, sweet potatoes and watermelons. They will continue throughout the drought period.

From another angle also came assurance of protection. John Barton Payne, chairman of the Red Cross, informed the president his organization had \$5,000,000 ready to prevent human suffering. He indicated Red Cross aid would be needed during the fall and winter.

Those men that he was associated with in London on the conference thought Joe was just about one of the biggest men in the country. About 1932 you are going to hear an awful lot about this guy if the Democrats decide to enter a man at all.

## A FORGOTTEN PROPOSAL

Amid a mighty hullabaloo the proposal of State Senator George H. Bender to reapportion Ohio's representation in the general assembly was made public during the first two weeks in April, 1929. The immediate occasion was the closing of the legislature, which, proponents of Senator Bender's idea claimed, had been dominated by "unpopulated and rural counties." Cries of "Re-establish representative government!" were raised and the following plan was suggested:

That the ratio (determined by dividing the total population of the state by 100) should be left the same, but the provision guaranteeing at least one member of the house to each county be eliminated. Counties whose populations fell below the ratio figure would be grouped into representative districts.

Subsequently Senator Bender started to circulate a petition looking to placement of his reapportionment amendment on the ballot in November. November came, the amendment was not placed on the ballot. The attorney general's office ruled that it would be eligible for placement on the next ballot. Now it is too late to do that. State officials question whether the petitions, which Senator Bender claims bear sufficient names (245,000), will be good for another year. Senator Bender has announced, however, that his amendment will appear on the ballots in November, 1931. More will be known about that in 1931.

The conditions which made it profitable for Senator Bender to campaign for city rights in the state legislature still exist, but the issue as it was drawn at the time of the first outcry seems to have disappeared completely. Have the sparsely populated counties scored a knockout, or is the Bender amendment just in a deep sleep trying to gain strength for another entrance?

## OUTRAGED LIBERTY

The drive opened by Catholics in New York City against "obscene" plays is of national significance. It will affect, if carried on consistently, theater-goers in all parts of the United States, since it is from New York City that all plays either come or go at one stage or another.

Obscenity on the stage, and no one denies that the New York stage is guilty, has no defense. Put to a test it can exist only by tolerance, perhaps apathy among those to whom it is presented. Producers of plays blinking the real truth and preferring to interpret the market for their wares as existing in a minority, lay unfounded claims to liberty as they devise new bits of obscenity. Occasionally, they go as far as to outrage completely the sense of public decency and bring trouble upon themselves. It is simply that which has happened in New York. The Catholic Theater Movement, which is conducting the campaign, cannot be accused of narrow-mindedness in its action. It has made an accurate judgment of the extent of the theater's degeneracy and stands ready to prevent it from spreading further.

The Earl Carroll Vanities and Lysistrata, the latter an adaptation of Aristophanes' comedy, are the provocation for the campaign. The obscenity of both is unquestioned. The Vanities are an undisguised approach to a gutter mood, made more reprehensible by their producers' usual blurb about art. Lysistrata, while it has more cleverness to recommend it is no less objectionable as a masterpiece of unabashed mockery on public decency.

It is unfortunate that theatergoers outside New York City do not have more opportunities to tell some producers that their entertainment sense is tragically askew, that the minority which claps its

hands loudly for an off-color line or scene is not the part of the audience that can support the theater year in and year out. Moving picture producers, vaudeville producers, play writers—they will do well to observe the handwriting on the wall in New York City.

## What Others Say

**AMERICAN CULTURE**  
Paul Morand says that Paris has lost the "gentle art of living." He affirms that true culture is easier found in America.

Mr. Morand is a leading French novelist, and his opinion should be worth at least a passing notice. It is most agreeable to us since he comes to speak from the authority of personal association and observation.

American tourists and literary scouts, so to speak, in the view of this writer, would better remain at home. He told the American club in Paris, that people who come from America to Paris seeking the old culture were wasting their time, for they may find it in New York and other American cities.

With reference to New York, Mr. Morand insists that it is the place of all others where the present generation can lead a superior life—and a superior life defined as comprising "good manners, picture galleries, Parisian frocks, the enjoyment of real conversation, attendance at good plays, and knowledge of good wines and the strategy of love."

Art no longer is an European monopoly, says this critic. The old masters are in New York, Cincinnati and elsewhere. The antique dealers long ago discovered America.

It is the same with the drama. People, says Mr. Morand, come to Paris to see good plays and find in the theaters translated versions of "Broadway Melody," "The Trial of Mary Dugan," etc., while New York and American cities have the world's greatest actors, musicians and entertainers, and everywhere beautiful libraries, full of the rarest editions. In his belief America, during the rest of the century will possess a culture of its own.—Cincinnati Enquirer.

HAMBURG Aug. 14.—Hamburg received the deepest wound of all in the war. First to eat black bread, the falling mark tumbled first into oblivion here. Prosperity depending so solely upon its enormous port, it was bled white, its swift rhythm clogged.

Universal commerce was obliterated by stoppage of navigation and complete loss of its merchant fleet. That it survived these blows, together with crushing terms of peace, smacks of elbow grease. The city

decreased in population from a million to 700,000.

But the venturesome Hansaite spirit crushed to earth, like truth, arises. Today it tops the million mark in a remarkable come-back. That it established successfully its new famous University of Hamburg after the revolution is, too, a triumph for Kultur.

To my notion Hamburg is the least sentimental about the Kaiser. I might add my impression Germany's greatest hatred is for Belgium, England next, and France least of all. Germans believe that had Belgium offered no resistance they would have taken Paris and won the war in quicktime.

Hamburg's port is a bee-hive and has caught up with its before war traffic. That web uniting German commerce with all far-flung outposts of the world has again been spun. Long quays and harbor basins are alive with ships. The fastest train in Europe is between

Berlin and Hamburg.

Hamburg has an exquisite setting. The Alster river forms a lake around which the city is built in semi-circle. The lake is animated with pleasure boats and its banks are terraced and forested, giving the ensemble appearance of a watering resort.

Yet the city is all business. Rank is gained solely by personal ability. Night life is unknown, and I am told only two restaurants feature dancing. Its staid citizenry reminds me of Alfred Henking, sedate banker of our town, who was a German American.

Hamburg offers the quintessence of cosmopolitanism. Through its vast shipping it is in touch with the entire world. In a steamship office, an old friend, the Herr Direktor, talked as I waited at his desk, in five different languages over the telephone and added a superb linguistic finish by turning

to inquire in pure Broadway: "How's every little wrinkle?"

While old merchant houses remain, they are vanishing. These are long warehouses with front doors on the street and back doors facing shipping canals that thread the town. In the beginning they were a united dwelling, office and warehouse under one roof. Modern office buildings are separating business association from family life. Hamburgians today catch trains to New Rochelles.

This is a summer overcoat town too. At 5 in the evening, an icy mistral pops up, and those caught off guard do fancy teeth chattering. In a cab to the hotel this evening Billy sat in the front seat doing the neatest hula I've seen since Gilda went Park avenue. He doth not care for the coolth the thithly. Hamburg and environs have not been invaded by the naked cults.

Twenty-eight weekly and monthly periodicals are devoted to their aphrodisiacs in Germany. Sans clothes, they live close to nature and in proximity to every large city. It is an offshoot of after-war psychology, and in such matters the Germans are extremists. On the fashionable Tiergartenstrasse in Berlin an aristocratic mansion is given over to an institution boldly labeled: "The Institute of Sexual Science." Here rich abnormalities two I recognized as New Yorkers, are treated by suggestion. (Copyright, 1929, McNaught Syndicate, Inc.)

## The Stars Say—

For Friday, August 15

The planetary configurations for this day emphasize the unusual, peculiar and subtle. The influence of Neptune, the planet of the mysterious and marvelous, may assist all new projects or those negotiations

which may be most successfully maneuvered by secret and intriguing methods rather than by "open agreements openly arrived at." With this there should be care in signing all writings. The personal relations may be complexioned by subdued, curious, suspicious or suppressed aspects.

Those whose birthday it is may expect a year on which they may safely launch new plans and projects, especially if these combine with large or secret organizations or rings. But those activities involving conspiracy, diplomacy or subtle manipulations should prosper, provided there be care in signing all writings. The tendencies may be toward the mystical or curious, and the personal attitude may be subdued or depressed. A child born on this day may be disposed to the things of a secret, subtle or mysterious nature, and should succeed where intrigue and strategem are important and determining factors.

*"I know all about this great new Heavy Duty, and I indorse every word Goodyear says about it. It's the best looking tire you ever saw, and my customers who have bought it tell me it's even better than it looks. Drop in the next time you're down this way. I have your size in stock. The way prices are now you'll never get a better chance to let your tire dollars do double duty."*

Smart buyers

are getting bigger tire values now than ever before!

Competitive conditions are tightening up in the tire business.

When this happens, high-powered salesmanship usually takes on an extra head of steam.

But don't be confused when the tire dealer with something "special" to sell backs you into a corner.

Just remember the one fact — after years of experience, after testing this value and that, "more people ride on Goodyear Tires than on any other kind!"

There must be a valid reason for this.

There is: Goodyear Tires are definitely superior, in the two main parts of a tire.

The Goodyear All-Weather Tread is superior in traction.

The Goodyear Supertwist Carcass is superior in vitality and long life.

These superiorities are not sales claims; they are real.

Any Goodyear Dealer will be glad to demonstrate the facts.

The facts certainly are: Goodyear Tires do give greater value.

As far back as 1916, it became a fact that more people ride on Goodyear Tires than on any other kind.

Every year since that time it has been increasingly true that more people ride on Goodyear Tires than on any other kind.

Today this preference for Goodyears runs into millions: millions more people ride on Goodyear Tires than on any other kind.

There can be only one conclusion: Goodyear Tires must be better — and at present prices they are a matchless bargain.

Now is the time to get yours.

# Traynor May Manage Pittsburgh Pirates During 1931 Season

## THE DAY In Sports

### Team's Poor Showing This Year Indicates Need Of New Leaders

In a recent discussion about the merits of the Robins, John McGraw declared that the greatest single factor in the success of the club is the play of Al Lopez, the sensational young catcher—and as the Flatbush athletics continue their pennant drive it becomes increasingly apparent that Jawn didn't miss the mark by so very much.

Without question, the young Spaniard from Tampa is the prize of the 1930 recruit playing crop, and his consistently splendid work has given the Robins strength where heretofore they have been weak.

Al's been handling the pitchers with excellent judgment; his receiving, throwing and other mechanical operations have been flawless, and he has done his share of the hitting.

It is easy to understand why Lopez would appeal to McGraw and the other veterans of the baseball wars. He's a reminder of an older type of baseball than the slug and pray methods now employed.

The game that he plays is the kind of baseball, McGraw would like to play, and the kind at which Jawn's teams used to excel. Cleverness and skill and quick thinking are substituted for brute strength, and Al wins with those qualities where other players must rely wholly upon power of the base hit.

Not that Al is a weakling with a bat in his hands. Far from it. His average for the season is well above .330, and many of his hits were the winning factors in victories recorded by the Robins.

As a matter of fact, Robins has promoted him from the eighth position in the batting list to sixth in order to take the fullest advantage of his swarming talent.

It's one of the wisest things Robins has done this year, too. The Robins run totals are certain to be increased by reason of the transfers.

Yet it's not Al's hitting, or even his catching that impresses most. It's his style of game and attitude toward it that catches and holds attention. There's that air of proficiency about everything he does. He always seems to make the right play, and is always in the right spot to make it. In short, he's a ball player along with being a catcher.

So credit another smart observation to John McGraw. He called the turn on Lopez and on the Robins

Never less than a contender for the National League flag during the last half decade, the Pittsburgh Pirates appear to be nothing more than a second division club this season with a great chance of finishing fifth and a meek chance of finishing fourth. Naturally, the big blame descends upon the person of Jewel Ens, who got around to managing the Pittsburghers toward the end of 1929. And with this situation, Harold "Pie" Traynor once more becomes the minute man of the hour.

Those whose contention it is that the useful decline in Smokey Joe's box office receipts can be traced directly to the mind of Barney Dreyfus, head man of the franchise, take not into consideration the all too evident fact that a pennant-hoping team would dispense with all this. Pirate fans, like all others, go for a winning combination in a big, time way and for this reason there are heavy bits of conversation about the deal city today that Ens will find replacement next semester in the fellow who now is doing his third-basing—"Pie" Traynor.

Not only might Traynor's designation re-popularize the club; it may re-establish the nine once more in the official averages, and that, after all, is more important than almost anything else.

Dreyfus figuratively handed the rabble of Pittsburgh a bottle of vinegar to empty upon him last winter when he permitted Burleigh Grimes, the large butter and spit-ball man, to slip from his organization, and when it became unexpectedly apparent this spring that his swap of Glenn Wright for Jess Petty was all to the terrible, people began burning his effigy. Barney remained aloof, however, determined that the front office was always daintily ineffectual and silently envisioned a winning club to douse all the clamoring.

But, to date, a winning club has not appeared. Unless, of course, you might call the Pirates the winners of the second division. So, of necessity rather than of wisdom, Barney is peering for means of arising from the debacle. Most assuredly, there will need to be a few substantial replacements here and there for 1931 but these won't mean

### DAMASCUS LOSES CLOSE DECISION TO SALEM TEAM

#### "Lively Ball" Appears In Game Played At Centennial Park

The "lively ball" was introduced for the first time this season to Salem fans as the city's all-star team registered a 5-4 victory over the Damascus Quaker outfit at Centennial park Wednesday evening.

It was a classy exhibition of baseball, with 60-4 baselines and an insipid ball being used for the first time here. The new game's debut was greeted with varied opinions from the large pack of fans who witnessed the affair.

George Early hurled for Salem and pitched great ball but was given poor support. He was never in danger of being scored on until the fifth when errors by Bolen, Scullion and Fitzpatrick scored two runs. Damascus registered two more in the sixth, coming from the rear to tie the game at 4-4.

Salem scored three times in the third on homers by George Morris and Fitzpatrick, then added a fourth marker in the fifth. The winning run was scored in the last half of the sixth with none out, Kelley's double breaking up the game.

### Moody, Jenkins Missing From American Tennis Ratings

NEW YORK, Aug. 14.—With the world's champion woman player, Helen Wills Moody, as well as the No. 2 American star, Helen Jacobs, both missing from the list, the United States Lawn Tennis association today made the draw for the national women's singles starting next Monday at Forest Hills. Mrs. Anna Harper of San Francisco was seeded No. 1 on the national list and Betty Nuthall of England, No. 1 among the foreign contenders.

Although she ranked No. 5 on the American list last year, Mrs. Harper's tournament play this season resulted in her gaining the favored position in the draw.

Similar recognition was given to Miss Marjorie Merrill of Dedham, Mass., seeded No. 2, although she was No. 11 on the 1929 ranking list.

### Baseball Still Popular, Says Yankee Star

BOSTON, Aug. 14.—"This talk about baseball being on the wane is a lot of applesauce," said George Herman Ruth, "Sultan of Swat," who daily hears to a new home run record despite a severe hand injury that for a time handicapped him, struck base at the pessimists who declare baseball interest to be on the downward path.

Further proof of his statement, the Babe went on:

"They still rave, and howl just as loudly as ever here in Boston. It keeps right on being the best city of them all. Can you imagine any other town turning out 22,000 for a mid-week double-header for a last place ball club, as Boston did for the Red Sox the other day?"

"A lot has been said about poor attendance on our last Western trip, but I'm ready to tell the world that there never was such steady and continued heat."

### Brooklyn Stages Comeback To Trim Cubs By Big Count

(By The Associated Press)

As long as the Brooklyn Robins can keep on slugging the ball, the collapse of their pennant hopes, which have been rumored every time they have lost more than one or two games in a row, seems unlikely. Supporters of their rivals, principally the Chicago Cubs, were beginning to celebrate the Brooklyn downfall after the Robins had lost five straight games, and had dropped the opener of the current "crucial" series as Chicago won its sixth straight.

But the Robins slugging reappeared yesterday and showed that there still is plenty of life in the Flatbush team. A game behind and apparently headed for a worse position, the Robins overcame all their weaknesses by the sheer power of their days and once more placed themselves in a virtual tie for the lead. Today the Cubs' margin is only two points instead of the hoped for two games as the result of the 15 to 5 beating inflicted by Brooklyn yesterday.

Guy Bush hit hard in contrast to Tuesday's over-the-shoulder game, Brooklyn went out yesterday early in the game and assaulted Guy Bush for enough runs to win in the first three innings. Bush fell before the booming Brooklyn bats in the third frame, which saw the Robins pile up a 5-0 lead. Four successors were only so many victims as the Robins hammered out 18 hits for 24 bases. The Cubs made 18 blows, one of them Hack Wilson's 40th home run, but with little effect.

While the warfare of the Titans was going on the New York Giants were having about as much difficulty in their attempt to stay on the heels of the leaders. The Giants had to come from behind in the ninth and score two runs to tie the Cincinnati Reds in the opener of their series. And it took a homer by Fred Lindstrom with Chitz on base in the tenth to give them a 7 to 6 victory. As rain at St. Louis kept the Cards and Boston idle the victory enabled the Giants to pick up a half game lost through Tuesday's idleness. The same rain benefited the Pittsburgh Pirates, who gave away four runs to the Phillies in the first inning then came from behind to win their fourth straight, 8 to 4.

**Race Remains Safe**

The three American league leaders failed to produce any change in their standing. Philadelphia, Washington and New York all coming out ahead of their western rivals. The champion Athletics made it three straight over Cleveland by a 7 to 2 score as George Earnshaw won his 18th victory of the year. Roxie Lawson, rookie right hander, made a good battle of it until an error spoiled his major league debut.

Washington's Senators piled up an early lead of five runs off their old mate, Garland Braxton, then kept the Chicago White Sox from turning their 14 hits into runs to win by a 7 to 4 count. The New York Yankees put on a similar performance, scoring enough runs in the first five frames to offset a sudden weakness on the part of George Pippas and defeat Detroit, 10 to 8. The Tigers got to Pippas in the sixth to score six of their runs but Lou McEvoy, fourth Yank pitcher, finally stopped them short of a tie.

The St. Louis Browns reversed the previous day's decision, beating the Boston Red Sox 7 to 2. Goose Goslin again took the day's honors, driving in four runs with a home run and two singles.

### CUP CHALLENGER SAFE IN AMERICA

NEW LONDON, CONN., Aug. 14.—The task of repairing the Shamrock Sir Thomas Lipton's newest challenger for America's cup, starts today at the electric boat work yard.

She is the fifth challenger, the daughter Sir Tom has sent across the Atlantic in quest of a trophy won by the Yacht America in 1870. Originally the cup cost 100 guineas. Today, if it were not for the old "mug's" glamorous history, no cautious pawn broker would loan \$50 on it. Yet four or five millions will have been spent this year because of it when Sir Thomas sails away in the fall, victorious or numbering his fifth defeat.

Although she was beat by head wind throughout her voyage across the Atlantic, the Shamrock V dropped anchor here last evening after a 26-day land-to-land passage across England and the United States. Her time was a day better than that of the Shamrock IV, the challenger which was defeated by resolute and Charles Francis Adams, present secretary of the navy, 10 years ago.

### Columbiana Battles Laundry To 7-7 Tie

The American Laundry, marshall team of Salem and Columbiana battled to a 7-7 tie at Centennial park Wednesday evening.

The Laundry lads came from behind to take the lead late in the game but blew up and permitted the visitors know the count in the seventh.

The game was called off to permit Salem and Damascus teams to clash in the second game.

## Social Affairs

### HOMEMAKERS CLUB

A program entertained at a meeting of the Homemakers club Wednesday afternoon at the home of Mrs. Warren Harris, near the Winona road.

These numbers were given: Select reading, "End of the Trail," Mrs. Milton Crawford; "Poetry," Mrs. Frank Fultz; recitation, "Lascia," Mrs. John Barth; "The Supreme Art of Living," Mrs. S. E. Christopher. Lunch was served. The club passed resolutions of respect for Mr. W. J. Blackburn, who died some weeks ago.

Miss Mary Kaminsky and Miss Benedict of Salem, were included in the guest list.

On Sept. 10 the members will meet with Mrs. Josephine Murdock, Salem Winona road.

### BUSY BEES

On Wednesday afternoon the Busy Bees class of the First Friends church had an enjoyable picnic, given by the losers in an attendance contest, captained by Mary Jane Shoo. Gladys Marie Rich captained the winners.

The girls with their teacher, Mrs. Edgar Derr, went to Lake Placencia, near North Georgetown, where they found pleasure in water sports. From that resort they went to Silver park, Alliance, and had a picnic supper. The winners furnished a treat of home-made candy. Contests entertained. There were 19 in the company.

### STAR CLUB

Officers for the ensuing year were chosen at a meeting of Star club members Wednesday afternoon at the home of Mrs. H. A. Shinn, on Benton road.

Mrs. Robert Armstrong was elected president; Mrs. Ella Lloyd is secretary-treasurer.

Vocal and instrumental music entertained and fancywork interested the women while they visited. The hostess served lunch.

Meeting on Sept. 10, the members will be guests of Mrs. Ernest Weingart, Goshen road.

Miss Ida Yengling, Salem, was a guest of the club.

### EMPLOYEES PICNIC

Employees of the Stamp Home Stores, Inc. and their families, and Maytag salesmen in Columbiana county had a delightful picnic Wednesday afternoon and evening at Peace Valley park, near New Waterford. A steak and corn supper was a feature. Some in the company played baseball.

Among the guests were Frank Cogill, of Steubenville, division manager, and Mrs. Cogill, and Walter Rogers of Cleveland also division manager.

### MRS. MOUNTS' CLASS

Members of Mrs. G. H. Mounts' class of the Christian church enjoyed a picnic Wednesday afternoon and evening at Lake Placencia, near North Georgetown. Water sports furnished amusement for the boys and they attended the concert given by the Veterans of Foreign Wars Boys Band, of Salem, and were also interested in a demonstration given by the Homeowner fire department. A supper was served.

### MARRIAGE LICENSES

A marriage license has been issued to Norman J. Hamilton of East Liverpool, a salesman and son of Mr. and Mrs. S. J. Hamilton and Miss Margaret G. Baxter, also of East Liverpool and daughter of Mr. and Mrs. C. W. Baxter. They are to be married by the Rev. Mauer.

Fred Fuller of Salem, employed as a tire builder and Miss Charlotte Ainscough, daughter of Mr. and Mrs. John Ainscough of Salem, have procured a marriage license.

A marriage license has been issued to Robert Cartwright, an iron worker, residing at Youngstown and Miss Maxine Hufford, of Lisbon, daughter of Mr. and Mrs. Otto Hufford. They were married at the parsonage of the Presbyterian church by the Rev. J. M. Cotton.

### STEADY GLEANER CLASS

The Steady Gleaner class of the First Friends church will meet at the church Friday evening at 6:30, before going to Lake Placencia for a social time.

### CHILDREN PICNIC

A group of children enjoyed a picnic dinner Wednesday at the home of Mrs. Norman Dow, Tenth street. Games were a favored pastime.

Mr. and Mrs. John Dault, Mrs. Adelaide DeRhodes and Sterling Dault were in Cleveland Wednesday. Sterling remained for a few days.

spread out over a large area and was threatening woodlands a short distance from the village of Damascus when firemen, aided by a large force of volunteers, extinguished the blaze.

The first alarm of the afternoon was turned in at 1:37 p.m. in a vacant lot at the corner of Sharp street and Prospect having caught fire. The run to the Damascus blaze was made at 2:15.

At 3:05 one fire squad was called to a grass blaze at Sixth street and Vine avenue and 17 minutes later the second squad of fire-fighters responded to a call east of the city to battle flames in a field at the old fair grounds property which threatened large woodlands. A grass fire occurred on Wilson street at 3:45.

Burning rubbish in the rear of the Metzger hotel, located in the center of the downtown business district, caused the sixth alarm of the afternoon. Firemen used 40 gallons of chemicals to prevent the fire's spread to the hotel and the Lease-Lundy Drug store and extinguished it with little damage resulting to either place.

The final conflagration occurred at the old fair grounds at 9:20.

Each of the fires were serious. Fire Chief V. L. Malloy stated, in that homes were endangered.

How her friend gets whiter washes

"THE MAN who sold me my washer told me to be sure and use Rinso. That's what makes the difference—I've tried other soaps and I know Rinso gets clothes whiter safely. Without boiling too. Why don't you try it?"

Great for tub washing, too

The makers of 38 famous washers recommend Rinso. Just as wonderful for tub washing—soaks out dirt and saves scrubbing. How that saves the clothes!

Cup for cup, Rinso gives twice as much suds as lightweight, puffed-up soaps—even in hardest water. Get the BIG package. You'll like Rinso's lively suds for dishes, too!

brilliant orator in Europe, not long ago in jail for political offenses, now leads an important party in Germany, expected to win many victories in the Reichstag election of Sept. 14.

The Hitler program includes annulment of the treaties of Versailles and St. Germain; no more reparations payments; a powerful German army, such as Germany used to have; profit-sharing for workmen; national ownership of industry; and "a nationwide program to disfranchise or drive from Germany all the Jews."

BEFORE PROCEEDING WITH the anti-Semitic idea, Hitler should inform himself as to what happened to Portugal when that country drove out all the Jews, sending them to Holland and England, and what happened to Holland and England after the Jews arrived, in the way of prosperity.

Lord Dawson of Penn., physician to King George, king of England and emperor of India, says prohibition is "illogical."

It is said he, logical to prohibit all use of alcoholic beverages because some indulge to excess.

In America, where many connect our "noble experiment" prohibition with our ignoble crime wave, some think prohibition is worse than "illogical."

THE NOBLE LORD adds: "Because some men love well, rather than wisely, are we to cease our worship of Venus? Because speech sometimes maddens us, are we to ordain silence?"

The answer for the United States is: "You may be right, but none the less, prohibition will be nominally at least, the law in America for many a year."

## BELMONT COUNTY PRISONERS RIOT

### Disaster Prevented By Officials As Blaze Threatens Jail

ST. CLAIRSVILLE, Aug. 14—Smoke pouring into cells which held 60 prisoners threatened to cause a riot in the Belmont county jail last night, but prompt action of officials and firemen prevented a disaster.

The flames started on the third floor and began eating their way through to the cell tiers below. The prisoners shouted to be released for a time, but were quieted by Sheriff Ford Moore and his deputies who went through the stone structure promising freedom if the fire grew worse.

The blaze was believed to have been of incendiary origin and one man was placed in solitary confinement. A bundle of smoking rags was found where the flames started.

## FOUR KILLED IN NAPLES TORNADO

### Many Injured As Italy Suffers Heavily In Latest Disaster

NAPLES, ITALY, Aug. 14—On the eve of celebration of escape from serious damage in last month's earthquake, the section of Naples occupied by the agricultural market today was swept by a tornado which took at least four lives and injured between 70 and 80 persons.

The city was panic-stricken and police and carabinieri had trouble in keeping back the crowds from the hospitals where the injured were taken. The storm broke at 6:50 a. m., the early hour, it was believed, keeping the casualty list as low as it was since the market was not yet crowded.

Four known dead were found beneath the debris of the wall of the Romeo Aeronautical Works, a section of which, ten feet high and 150 feet long was knocked down. Policemen and firemen engaged quickly in removing the remainder of the debris in the fear other bodies would be found. Many took shelter from the storm in its shadow and barely escaped when it fell.

From 3:45 to 4:30 a. m. nearby Rome experienced terrific electric storm which knocked tiles from roofs and carried chairs and tables left on open air balconies great distances.

## "Lifts" Cheeks Rounds Face With Cream!

Science never sleeps! Think of it—now the way has been found to strengthen and tighten the weak, stretched face muscles that cause the cheeks to sag—to actually "lift" the drooping jowls and round the contours without that dreaded operation!

By combining the ONE and ONLY essence known with the power to penetrate the skin pores and nourish the muscles and other tissues directly beneath, with other essentials necessary to healthy, beautiful skin, Science has now evolved Amla Nourishing Cream.

Simply by patting Amla thoroughly into the skin of the face and neck, most amazing results are obtained. Amla acts instantly to contract and firm the undernourished, flabby muscles, and stimulate the circulation. You can actually feel Amla work! Day by day you'll notice delightfully how the throat is rounding out, the cheeks draw up into youthful contour, wrinkles disappear and skin clears of blackheads, pimples and other blemishes! Apply Amla tonight, and even by tomorrow morning the improvement will astonish you. You must try it. Remember, Amla Nourishing Cream is GUARANTEED to bring results! At J. H. Lease Drug Co., Three Stores.

MRS. E. L. COHEE

"I suffered for many years with

stomach trouble," said Mrs. E. L.

Cohee, West Alexandria, Ohio, near

Dayton. "I underwent eight opera-

tions in as many years and was in

a badly run-down condition. Gas

formed after meals and I bloated

until I became short of breath. My

work was a burden and no medicine

I tried did me the least bit of good.

"In desperation I turned to Kon-

are over. No gas forms in my stom-

ach after meals and I do not feel

nor become short of breath. I sleep

well and am in better health than

I have been in years. All this is

due to this wonderful compound,

Konjola."

Designed to afford lasting relief

from ailments of the stomach, liver,

MARKETS

STOCK MARKET SUPPORTED

NEW YORK, Aug. 14.—The stock

market met support after a fresh

wave of selling during the early

hours of today's session.

After showing losses of 1 to 3

points during the morning, the mar-

ket turned upward and several

shares set at net advances of 1 to

5 points by midday. The unsat-

isfactory character of the weekly

steel reviews, and further weakness

in Copper Metal, caused consider-

able early selling of the metals.

Such shares as American Can,

Radio and Westinghouse Electric

recovered losses of a point or more

and showed gains of like extent.

After losing 1½ U. S. Steel rallied

for a fractional advance. American

Tobacco B gained 5 during the

early selling. Republic Steel and

American Metals touched new lows.

Call money renewed at 2½ per

cent.

## HEALTH

By Dr. Royal S. Copeland

## Fresh Air Essential

We are meant to sleep well and often. When you sleep well, you feel well. After a night of perfect sleep you are fit for the day's work.

DR. COPELAND

Sleep is essential. When found and kept, and it becomes an unbroken habit, sleep repairs the damage done to nerve and cell tissues in the waking hours. It is a recuperative medium, and we can't get along without it.

There are many disorders of sleep; too many to include here. One of the most common is insomnia, or sleeplessness. It is due to a variety of causes. It may be due to physical or emotional conditions. It may come from a toxic condition or a nervous condition or mental fatigue.

Disturbance of the digestive tract is one of the most common causes for not sleeping well. Worry and anxiety of any sort is pretty sure to keep one awake.

Poorly ventilated and overheated rooms will cause great restlessness. Everyone should sleep with windows wide open and in the summer with light covering. Too much covering or not enough will cause wakefulness.

With children as with many adults, insufficient nourishment will cause persistent wakefulness. One of the best things to promote sleep is the drinking of a glass of hot milk, or hot malted milk before bedtime.

Proper habits of sleep are essential for a growing child, as they are for adults. Going to bed at regular times helps to fix the habit of sleep.

Babies pampered by mothers and nurses and taken up at the very first cry, or for a trivial reason, very soon become poor sleepers. From the time a child is a week old it should be laid down quietly and the room darkened when sleep comes on naturally.

In older children who are impressionable and of a nervous tendency it is best not to read them exciting stories or have them engage in exciting pastimes in the hour just before bedtime.

It is better also not to have a ticking clock in the room. It is just as well for children not to know the length of time they sleep.

These are only a few of the causes of sleeplessness. There are often conditions of health and disease where sleeplessness is a marked symptom but the common causes which many times are easily overcome should be attended to at once.

Sleep and rest come most easily when the senses are dulled to drowsiness.

Cultivate an optimistic spirit and teach your child to do the same.

Look on the bright side of things. Banish worry and in the natural order of things good sound sleep may be yours.

## Lincoln Highway Route Designatde

LISBON, Aug. 14—The state highway department has designated parts of U. S. routes No. 5 and No. 30 as the Lincoln highway in Ohio, the county commissioners have just been informed by the Columbus department.

In the counties of Allen, Hancock, Wyandot, Crawford, Richland and Van Wert, the Lincoln highway will be directed over State Route No. 5, while in the counties of Ashland, Wayne, Stark, Carroll and Columbiana counties State Route 30 will be known as the Lincoln highway.

This is now improved from the Pennsylvania line across the state to the Indiana state line.

## New Devices Invented To Aid In Safety On Pennsy Railroad

Minute fissures which might develop into defects in rails are being discovered through the use of recently perfected electrical detectors, it is announced by E. W. Smith, vice president, Pennsylvania railroad today.

A car fitted with the detector device is traveling west over the main line of the Pennsylvania toward Pittsburgh. A stationary detector has been installed at Verona, Pa., where all rails taken from Central region main line tracks are "checked" before being put back into service, generally on secondary tracks. The smallest flaw, worm condition, crystallization, fissure or other imperfection in a rail shows up under the electrical tests.

The central region of the Pennsylvania, of which Pittsburgh is headquarters, and which includes the Salem area, annually "crops" more than 100,000 heavy rails at Verona. The program of laying new rails and relaying tested old rails is being continued in the central region under the direction of J. B. Baker, chief engineer, maintenance of way department.

### COURT NEWS

**Foreclosure Filed**

Foreclosure proceedings have been filed in common pleas court by the Federal Building & Loan Co. of East Liverpool, through its counsel Hill & Davidson against Elizabeth R. Shepherd and others of 1128 Lincoln avenue, Pittsburgh, Pa. The petition sets up the defendants owe the plaintiff \$583.03 on a loan of \$700 obtained Feb. 15, 1921, secured by mortgage on lot 5441 C. A. Smith's addition, East Liverpool.

**Wife Asks Divorce**

A divorce petition has been filed in common pleas by Martha E. Wedger against her husband George W. Wedger of 2037 Chester avenue, Wellsville, with extreme cruelty and

### Freedom From Stomach Distress

H. Lease Drug Co., Three Stores Has the Remedy and Guarantee to End Indigestion or Gastritis

You can get one bottle of Dare's Mentha Pepsin and it after you take it you do not say it did you more good than anything you ever used before, your money will be waiting for you.

This delightful and effective elixir not only gives instant relief from gas, fullness, acid stomach and distress after eating, but taken regularly for a short time will turn your weak, run down stomach into a strong, healthy one able to perform its duties without help.

It ends indigestion, gastritis, catarrh of the stomach and does it in a surprisingly short period of time.

Dr. Wm. W. Morgan, a prominent dentist of Bridgeton, N. J., writes: "After suffering severely with gastritis and other stomach troubles a friend gave me a bottle of Dare's Mentha Pepsin. I had obtained little relief from other remedies, but four bottles entirely ended the trouble." Get it at H. Lease Drug Co., Three Stores and all reliable druggists everywhere.

**Decree Modified**

In the divorce case filed by Emmett Longbottom against his wife Bertha L. Longbottom May 25, 1929, the court has modified an alimony decree.

A hearing on a motion for temporary alimony is set for Aug. 25 before Judge W. F. Lones. Mrs. Wedger charges that her husband on numerous occasions struck her and tore her clothing and that he has threatened her life. Wedger is employed at the Champion brick works at Wellsville.

**Court Grants New Trial**

A motion for a new trial has been sustained and a verdict has been set aside in the replevin case of Herbert Andrews against Earl Spaulding, as constable of Unity township. The court has granted a new trial because the verdict was not sustained by sufficient evidence. Exceptions have been entered for the defendant.

**Order of Sale Issued**

In the case of the Home Savings & Loan Co. of Youngstown against Edward L. Gotthardt and others, an action in foreclosure, the court has directed that an alias order of sale be issued.

**Replevin Is Filed**

The Indiana Trust Corp., through its counsel W. W. Beck has filed a replevin action in common pleas court against M. L. Green of the Allen Apartments, St. Clair avenue, East Liverpool for the recovery of

**Files Partition Petition**

William H. Gears, through his counsel W. W. Beck has filed a partition petition against Charles E. Rogers, with the People's State Bank of Lisbon as a party defendant. Gears and Rogers purchased a farm of 30.85 acres in section 23, Fairfield township at sheriff's sale for \$10,000 and Rogers paid the People's State Bank \$900 due on a mortgage. Gears now claims that he is entitled to a half interest in the acreage.

## TWO INJURED IN TRAIN ACCIDENT

### Eight Cars Of Nickel Plate Train Leave Rails Today

ST. MARY, Aug. 14.—Eight cars of a fast Nickel Plate freight train enroute from Indianapolis to Buffalo left the rails near here early today causing the injury of two trainmen.

The injured men C. C. Lorry, flagman and D. W. Stemen, conductor, both of Lima, were riding in the caboose which was thrown over on its side.

The derailed cars were carrying a heavy load of flat steel. They left the track when a wheel broke on the sixth car from the end.

The right of way was torn up for a distance of 150 yards.

The east bound St. Louis-Cleveland passenger train due through here at 4:30 a. m. was detained by way of the New York Central and Baltimore & Ohio lines to Lima.

## COURT NEWS

### Prisoner Named Defendant

Fred Couts, now an inmate of the federal penitentiary at Atlanta, Ga., has been made defendant in a divorce action filed in common pleas court against him by his wife Hazel Couts, a minor, by her next friend and father, William Beier. The couple were married April 30, 1927, at Chester, W. Va., and according to the petition filed by Cochran and Crawford the defendant has been absent from the plaintiff since July 1, 1927. There is no issue, and the plaintiff asks the court, in addition to granting her a decree to restore her to her maiden name.

### Divorces Granted

On the ground of adultery, a divorce decree has been obtained in common pleas court by John C. Campbell against his wife Bessie M. Campbell, and upon the payment of the costs. The court has also awarded the custody of a minor son to the father.

Gross neglect of duty was set out as a ground of action in the divorce petition filed by Mary E. Smith against William B. Smith and a decree was granted the plaintiff upon payment of costs. Smith, however, has been ordered by the court to pay his former wife \$5 weekly for the support of his children.

## MOVIES

### "LIGHT OF WESTERN STARS"

At The State  
Richard Arien is seen as a swarthy, braggard and wholly lovable lover in his featured role in "The Light of Western Stars." With a part closely resembling his inimitable role in "The Virginian," Arien gives a great portrayal in this Zane Grey out-door action-romance.

Mary Brian is the heroine of this thrilling story and she is here every bit as sweet as she was in "The Virginian," or in "Burning Up," in which she was seen with Arien recently. The story is exciting and fast-moving, and replete with spectacular scenes, such as a gigantic wild horse stampede which would be hard to match for realism and startling beauty.

"The Light of Western Stars" in novel form was one of the best-sellers of the year. Paramount has captured the true spirit of the moving story. Arien, a young cattle foreman, in a moment of desperation,

vows to marry the first white woman he meets. That woman happens to be Mary Brian, who resents his insult. In a succession of adventurous events, Arien manages to effect his initial poor impression and wins the girl.

There are several excellent humorous roles in the story portrayed by Harry Green, whose dialect comedy is funnier than ever in this strange setting, and by William LeMaire, the garrulous sentinel of "Only the Brave." Fred Kohler furnishes the thrills as the badman who comes between Arien and his girl.

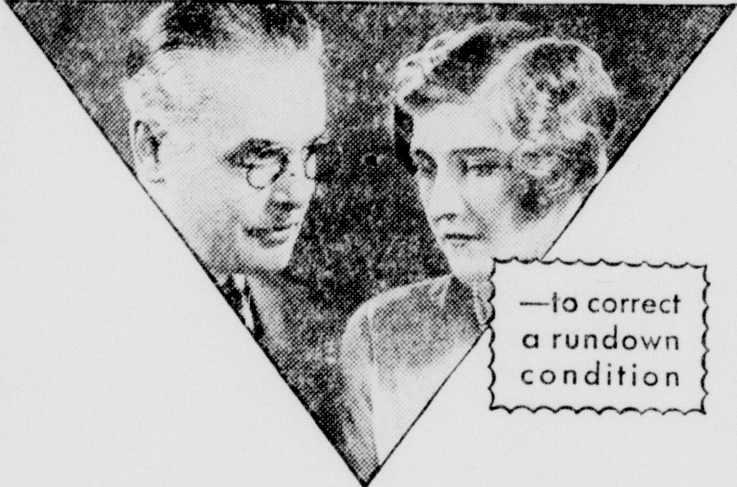

### Grange Entertained With Park Pictures

Irving Megral of Salem, showed stereopticon views of Yellowstone National park, at a meeting of Mt. Nebo grange Wednesday evening at the hall, Salem Lisbon road.

A reading was given by Mrs. Samuel Cook and Margaret Louise Megral contributed a cornet solo. She was accompanied by her mother, Mrs. Irving Megral.

The annual in-paction of the grange will be held on Sept. 19.

## Don't wait until it is too late!

## A fact you should not overlook

More red-cells in the blood! Good health and resistance to infection and disease, depend on that! Loss of appetite, underweight, sluggishness, a weakened condition, nervousness, pimples and boils are symptoms; often seen, of a deficiency of red-cells in the blood. If a lowered red-cell count is allowed to continue, ANEMIA often results. S.S.S. should be your safeguard. A hundred years of experience has proved its usefulness in building red-cells in the blood. Take it before meals. Millions of people have found it the easiest and surest way to restore their red-blood-cells. They appetite picks up, the whole body is invigorated. Get S.S.S.—take it and possess a wonderful power of new life and vitality. Ask for the large size. At all drug stores.
